

EDITOR'S DESK

Dear Readers,

It gives me immense pleasure to write this editorial message after successful release of first issue of volume 1, 2014. The previous issue had been very carefully put together covering a range of topics pertaining to Dentistry. I take this opportunity as an editor to thank our honorable DCI president Dr. Majumdar and DCI secretary Dr. Ojha for inaugurating our first volume at their office.

The objective behind the introduction of Rama University Journal of Dental Sciences (RUJDS) is to provide a platform for students of Dentistry and research scholars to share their valuable research findings at a global level. The continuous support from Management and Principal has encouraged us to work hard behind the success of the journal.

We have had an overwhelming response from various parts of India. I take this opportunity to thank our authors, advisors and anonymous reviewers, all of whom have volunteered to contribute to the success of the journal. Finally, we wish to encourage more contributions from the faculty of Dentistry to ensure a continued success of the journal. We are still inviting specialists from different fields of Dentistry to join editorial board and to provide their suggestions or comments to improve the editorial policy and quality of the journal.

We are presenting you with the second volume of our journal. I anticipate that this issue would be of immense value and will be definitely useful to dental science personnel in their practice or thinking process. I hope that Rama University Journal of Dental Sciences is useful reading at present and will be essential reading in future.

Dr. Gayathri Ramesh
